PAVLOS KATOSTARIS

COMPUTER APPLICATIONS TECHNICIAN

PROFILE

Graduate of Public IEK (Vocational Training Institute) in Computer Applications Technician, certified by EOPPEP, with hands-on experience in corporate environments. I possess a solid background in multimedia, web design, web development, and video game development, which combined with my professional experience provides me with a comprehensive understanding of creating modern digital solutions. I have advanced knowledge of programming languages including HTML, CSS, JavaScript, PHP, Java, SQL, MySQL, as well as experience with tools such as Git, WordPress, WooCommerce, GoHighLevel, ERP, CPanel, and AI platforms (ChatGPT, DeepSeek). Additionally, I utilize email marketing tools (Mailerlite, Mailchimp) and digital organization platforms (Trello, Screenpresso). I am distinguished by my analytical thinking, direct problem-solving approach, communication skills, and adaptability to new technologies.

WORK EXPERIENCE

Socialme.gr | Junior Digital Marketing Manager

09/2024 - 05/2025

Design and implementation of an integrated social media strategy (Instagram, Facebook, TikTok), including the creation and scheduling of daily content (posts, stories, reels), management of Meta advertising campaigns to increase reach and engagement, as well as data and KPI analysis for performance optimization. Additionally, I was responsible for daily community management and audience interaction, while continuously conducting market research and trend monitoring.

OR-CO SA | Junior Software Engineer

05/2023 - 12/2023

Database updating and maintenance using SQL and MySQL, alongside telephone customer service for resolving technical issues and requests. I efficiently managed support tickets until
their completion, while also recording and monitoring bugs (bug tracking) for ERP software improvement. My responsibilities also included identifying and assessing user needs, aiming to provide appropriate technical solutions.

News and Reviews Editor in insertcoingr.gr

01/2024 - today

Journalist specializing in the videogame industry. I am actively involved in writing articles and reviews, offering an analytical look at the latest developments in gaming industry.
